## THE SOLUTION

CONNECT offers a 360°-concept for you to start the production of a completely new, innovative and individualized product.

proudly presents

# A TRUE REVOLUTION:

The Manufacturing  
Process For True  
3D Jellies:

from 2-dimensionality  
(products with a flat back)  
to a 3-dimensionality.

Welcome to a new  
dimension:

## 3D IN JELLIES

### THE CHALLENGE

Depositing and formability of the depositing mass in a fast jellification process.

**Two options:** Closed cavity depositing or folding technology  
= **Balancing act between formability and fast jellification.**

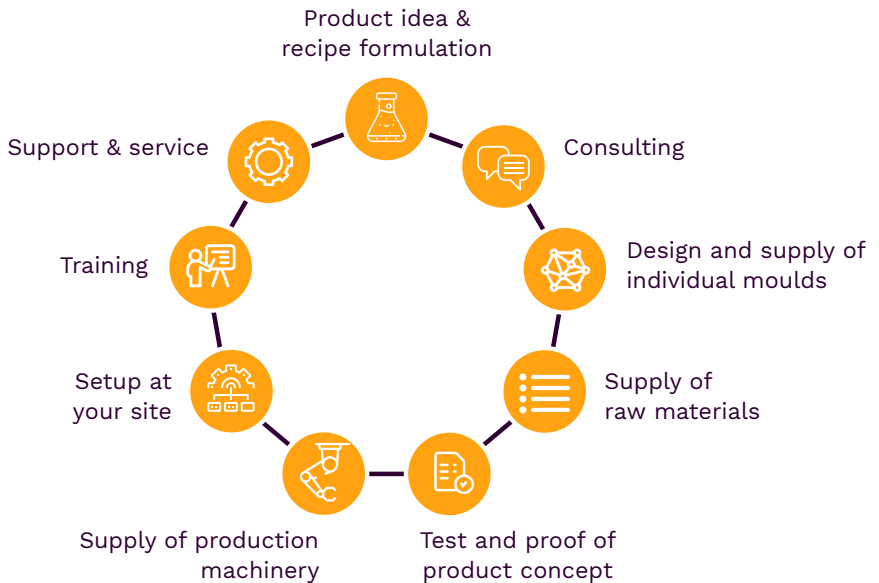

## ABOUT US

CONNECT is a partnership network of the best technologists in the confectionery industry. We pool resources and knowledge to develop innovations for the confectionery market.

## 360°-SERVICES

Our service includes a customizable recipe to produce innovative 3D-products in individual shapes, colours and flavours, with or without filling and enriched with functional ingredients, if desired.
